Executive Summary

Latest Update

The Ministry of Finance has significantly increased its transparency and disclosure efforts as means for real public participation especially during the lingering COVID-19 pandemic crisis. **The gains of the comprehensive economic reform program that started in 2016 allowed fiscal space and structural flexibility for Egypt to endure the crisis while not only maintaining economic and fiscal stability but also safeguarding the citizens most endangered by the crisis.**

The comprehensive presidential plan adopted to endure the negative effects of and fight the spread of the pandemic, includes an **EGP 100 billion stimulus package to support citizens and sectors most endangered by the pandemic. The plan sets sweeping incentivized measures for private sector and productive industries to maintain production levels as well as safeguard the labor force and create new jobs.**

The recently published citizen version of the pre-budget preliminary statement and its highlight expand on the measures taken by the government to endure the pandemic economic fallout as well as the government spending priorities and revenue sources for FY 2020/2021 budget. **It is noteworthy that this is the first time a citizen version publication has expanded on debt analysis and fiscal risk.** Amongst the highlights of the publications are:

- Increasing allocations for education and health abiding by constitutional entitlements
- Increased allocations for wages, pensions and social security programs
- A stimulus package of EGP 100 billion to support the most negatively affected citizens and sectors by Covid-19 crisis, in addition to incentivized measures for productive industries and projects
- This stimulus package is considered the largest in the history of Egypt, as it exceeds the package of measures that were implemented in 2008 to confront the global financial and economic crisis
- New tax brackets to benefit low income earners

Egypt has improved 27 points in the transparency index ranking as a result of the continuous efforts by the **Transparency and Citizen Engagement Unit** for the past 5 years adopting internationally recognized standards of disclosure, transparency and public participation;

- Egypt's ranking in the Transparency Index, issued every two years by the International Budget Partnership (IBP), improved by a cumulative of 27 percentage points, up from 16 pp in 2015 to reach 43 pp in 2019.
- This score is close to the global average of 45
- It surpasses the MENA region average of 22
- Egypt's rank improved to occupy the 61st place globally and share the 2nd place regionally, up from 65th place globally out of 117 countries in 2017
- Egypt's public participation score has risen by 4 pp to reach 15 pp out of 100 pp, up from 11 pp in 2017, exceeding the global average and surpassing Jordan and Morocco
- It is worth noting that the budget transparency report is widely used by international institutions, on top of which the IMF and the World Bank, in addition credit rating agencies as a sub-indicator for safe investment

Egypt's current global rank in Budget Transparency

In a related context, the reform measures implemented by the Egyptian government were praised by many international financial and development organizations which indicate increased confidence in the Egyptian economy as Moody's Credit Rating agency has kept its credit rating for Egypt at "B2" with a stable outlook, praising the reform efforts on the fiscal, monetary, and human development fronts. However, Moody's maintained Nigeria's rating at "B2" rankings with a negative outlook and narrowed its forecasts for banking systems in South Africa, Nigeria and Morocco, amid fears of the repercussions of the Coronavirus pandemic and declining oil prices

Recent Macroeconomic Indicators

Real Sector

In light of the responsiveness of recent macro-economic indicators to the comprehensive reform program, GDP grew by 5.6 percent during FY18/19, compared 2.3 percent during 2011-2014 on average. It is worth mentioning that Egypt is placed third in the world in terms of growth rate achieved, after China and India. Moreover, it is noteworthy that the pillars of growth are becoming more diversified and more sustainable, mainly due to the positive performance of investment and net exports rather than consumption, which has been the main driver of growth for many years. On the sectoral side, growth has been driven by manufacturing, natural gas, tourism, construction, and telecommunications as the main drivers of growth, highlighting the shift to a more sustainable sector structure. This growth led to job creation as the unemployment rate dropped to 7.5% in June 2019. Data for the fiscal year 2018/2019 is being published.

Net Exports performance was the highlight contributing positively to growth by 2.3 PPT in FY18/19, compared to a contribution of 1.9 PPT during FY17/18. Meanwhile, public and private consumption have contributed positively to growth stabilizing at 1.0 PPT. Investments contributed positively to growth by 2.2 PPT, compared to 2.4 PPT during FY17/18.

Furthermore, total Production Index rose by 5.3 percent on monthly basis recording 141.8 points during September 2019, compared to 134.6 points during last month, mainly driven by Construction Sub-Index that picked-up by 47.2 percent, recording an average of 173.9 points during September 2019, compared to 118.1 points during last month. Followed by Tourism sector, and which rose by 10.1 percent to record 156.8 points in September 2019, compared to 142.4 points during last month.

On the Demand Side, Private consumption grew by 0.9 percent in FY18/19, compared to 1.0 percent last fiscal year (contributing to growth by 0.8 PPT during FY18/19), while Public Consumption grew by 2.8 percent in the period of study, compared to 1.7 percent (contributing to growth by 0.3 PPT, compared to 0.2 PPT). In the meantime, recent data shows that Investments grew by 13.1 percent during FY18/19 (contributing to growth by 2.2 PPT during FY18/19).

Furthermore, Net Exports boosted growth with a positive contribution of 2.3 PPT, compared to 1.9 PPT during last year. This improvement came in light of the decline in imports growth, and which has outpaced the decline in Exports growth compared last year to reach -8.9 percent for the first, and -2.1 percent for the latter, respectively. Imports contributing to growth by 2.7 PPT, compared to a negative contribution of 3.1 PPT during last fiscal year). While, exports contributed by -0.4 PPT in FY18/19.

On the Supply Side, main key sectors led growth, on top of which were Tourism recording growth rate of 20.1 percent during FY18/19 (contributing positively to growth by 0.5 PPT, compared to a contribution of 0.7 PPT during the same period last fiscal year). In addition, Natural Gas Sector to record 20.2 percent real growth rate during FY18/19 (contributing positively to growth by 0.9 PPT, compared to 0.7 PPT last fiscal year). Moreover, Telecommunications Sector which recorded 16.7 percent real growth rate during FY18/19 (contributing positively to growth by 0.4 PPT, compared to 0.3 PPT last fiscal year). Meanwhile, Construction Sector recorded 8.8 percent real growth rate during FY18/19 (contributing positively to growth by 0.5 PPT). Besides, Non-Petroleum Manufacturing Sector recorded 3 percent real growth rate during FY18/19 (contributing positively to growth by 0.4 PPT). Agriculture Sector recorded 3.3 percent real growth rate during FY18/19 (contributing positively to growth by 0.4 PPT). Wholesale and Retail Trade Sector recorded 3.9 percent real growth rate during FY18/19 (contributing positively to growth by 0.5 PPT) during FY18/19. Real Estate Sector recorded 3.9 percent real growth rate during FY18/19 (contributing positively to growth by 0.4 PPT).

Net International Reserves (NIR) has reached US\$ 36 billion during May 2020, compared to a lowest level of US\$ 13.4 billion at end of March 2013.

Regarding EGX indices, the EGX-30 Index decreased by 3.16 percent during May 2020 to reach 10220.1 points, compared to closing at 10554 points in the previous month.

Tourism receipts reached US\$12.5 billion during FY18/19 compared to \$9.8 billion during FY17/18.

Fiscal Sector

In light of the strategic vision announced through the National Economic Reform Program, the government has taken many reform measures during the past three years in various fields to put the economy on track to achieve its potential. Those reforms have helped maintain the Egyptian economy resilience in the face of shocks. One of the promising signals appears in still achieving primary surplus during the period July-April 2019/2020.

- **A Primary Surplus has been recorded reaching LE 50.9 billion (0.8 percent of GDP) during the period July-April of FY19/20**, compared to a primary surplus of LE 54.8 billion (1 percent of GDP) during the same period last year. **Budget deficit¹ recoded 5.9 percent of GDP** during the period of study, compared to 5.6 percent during the same period last year. This could be explained in light of the **increase in Revenues by 4.1 percent during the period of study, and the increase in expenditure by 8.6 percent during the period of study, compared to July-April 18/19.**
- **Total Revenues recorded LE 715 billion** during the period of study, and which has increased by LE 28.3 billion (4.1 percent growth) compared to the same period of last year. **Tax Receipts** (76.3 percent of total revenues) constituted around LE 545.4 billion of that amount, driven by the **increase in income tax receipts by LE 7.0 billion (3.6 percent growth) to record LE 198.3 billion during the period of study**, supported by the rise in receipts from taxes on domestic salaries by LE 6.6 billion (14.8 percent growth), to record LE 51.6 billion, compared to LE 44.9 billion during the same period last year, taxes on commercial profits rose by LE 4.1 billion (21.6 percent growth) to record LE 23 billion during the period of study. In addition, receipts from sales tax on services rose by LE 5.5 billion (17.5 percent growth) to LE 36.8 billion.
 - **Moreover, Non-Tax Revenues** (23.7 percent of total revenues) increased **by LE 33.1 billion** (24.3 percent growth) to record LE 169.6 billion during the period of study, compared to LE 136.5 billion during the same period last year. Grants increased to reach LE 4 billion during the period of study. **On the other hand, property income increased by LE 9 billion (16.8 percent growth) to reach LE 62.3 billion during the period of study, compared to LE 53.4 billion.** This is mainly attributed to the increase in **Dividends from Economic Authorities by LE 0.7 billion (6.8 percent growth)** to reach LE 10.7 billion, the increase in dividends collectively from **Public Sector, and Public Enterprises by LE 2.6 billion** to reach LE 6.9 billion, and the increase in dividends from **Egyptian Petroleum Company by LE 1.6 billion** to reach LE 2.2 billion. Moreover, proceeds from **Sales of Goods and Services rose by LE 11.2 billion** (29 percent growth) to record LE 50 billion during the period of study, and receipts from Miscellaneous Revenues rose by LE 8.7 billion (20.7 percent growth) to record LE 51 billion during the period of study.

¹ The slight increase in overall budget deficit is mainly attributed to the early repayment by treasury of LE 33 billion (0.56% of GDP) to pension funds, and which represents the entire dues for the FY19/20. In addition, zero bond coupons with an amount of LE 16 billion were early recalled in October 2019, instead of April 2020 to benefit from the decline in interest rates by 4 percentage points. This has compensated a 15.5 percent interest dues to the Central Bank of Egypt with a total amount of LE 25 billion. Furthermore, Treasury has paid LE 60 billion to repay Suez Canal certificates at the dates of its maturities, and the repayment of LE 40 billion to buy petroleum products to build strategic stocks fulfilling the domestic demands, and to meet the resettlements between the ministries of electricity, and petroleum. And finally, treasury has paid LE 80 billion for the pension funds, a half year portion of the total annually agreed repayment of LE 160.5 billion.

Fiscal Sector Performance during July-April 2019/2020

(LE billion)

	July-April		Growth rate
	2019/20	2018/19	
Revenues	715,043	686,783	4.1%
Taxes	545,397	550,271	-0.9%
Grants	4,034	635	535%
Other Revenues	165,613	135,877	21.9%
Expenditure	1,066,492	982,452	8.6%
Wages and Compensation of Employees	241,023	218,590	10.3%
Purchase of Goods and Services	49,893	48,887	2.1%
Interest Payments	407,309	351,320	15.9%
Subsidies, Grants and Social Benefits	177,167	202,784	-12.6%
Other Expenditures	67,799	61,505	10.2%
Purchases of Non-financial Assets (investments)	123,301	99,366	24.1%
Cash Deficit	-351,449	-295,669	
Overall Budget Deficit	-356,423	-296,516	
Budget Primary Surplus/or Deficit (%of GDP)	0.8%	1.0%	
Budget Overall Deficit (%of GDP)	-5.9%	-5.6%	

• On the expenditure side reprioritization is to achieve the best social yield through investment in human capital and better distribution of services and infrastructure. Total expenditures have increased by 8.6 percent during July-April FY19/20, compared to same period last year. On the other hand, spending on treasury contribution to pensions rose by LE 14.5 billion to reach LE 55 billion during the period of study. Spending on treatment for Egyptian citizens rose by LE 2.9 billion to reach LE 7.3 billion, compared to LE 4.4 billion, spending on health insurance and medicine subsidies rose by LE 0.4 billion (24.3 percent growth) to reach LE 1.9 billion, spending on exports subsidies rose by LE 0.7 billion (22.7 percent growth) to reach LE 3.5 billion. Besides, spending on purchase of goods and services have increased by LE 1 billion (2.1 percent growth) to reach LE 50 billion during the period of study due to increased spending on production and maintenance. Meanwhile, **Investment Spending** rose by LE 24 billion (24.1 percent growth) to record LE 123.3 billion, which reflects increased investments spending on infrastructure.

External & Domestic Debt

▪ **Total Government Debt (domestic and external)** increased to LE 4834.2 billion (78.4 percent of GDP) at end of December 2019 compared to 4801.8 billion (90.2 percent of GDP) at end of June 2019. This is mainly driven by the increase in T-bonds stock worth LE 356.2 billion compared to LE 77.2 billion increase in T-bills stock implementing the ministry's policy of increasing debt maturity. Meanwhile, government external debt increased as loans increased to US\$ 40.6 billion end of December 2019, compared to US\$ 37.9 billion at end of June 2019. Meanwhile, Banks debt decreased to US\$ 8.7 billion at the end of December 2019, compared to US\$ 9.5 billion last fiscal year.

Inflation

Annual Urban Inflation recorded 5.9 percent in April 2020, compared to 5.1 percent during last month. Meanwhile, average annual inflation rate reached 5.83 percent during July-April 19/20, compared to 14.34 percent during the same period of last year (in light of subdued food prices the biggest weight in CPI).

Monetary Sector

- **According to recent data released by the CBE; M2 growth** increased to 14 percent in February 2020 (LE 4187.6 billion), compared to 12.7 percent last month, and 11.5 percent in February 2019. This is mainly due to the increase in **Money (M1)** to 19.5 percent in February 2020, compared to 17.5 percent last month driven by the increase in **Demand Deposits in Local Currency** to 21.9 percent in February 2020, compared to 19 percent during last month, coupled with an increase in **currency in circulation** to 17.3 percent in February 2020, compared to 16.1 percent last month. Moreover, **Quasi Money** growth increased to record **12.3 percent** in February 2020, compared to 11.3 percent last month, driven by the increase in **Local Currency Savings and Time Deposits** to reach 22.5 percent in February 2020, compared to 20.5 last month.

- **Net Foreign Assets (NFA)** annual growth has increased to 52.3 percent (LE 386.1 billion) compared to 48.6 percent last month, mainly due to the significant increase in **Banks Reserves** to record positive value of 5.2 percent in February 2020, compared to -10.1 percent last month.
- **Net domestic assets (NDA)** annual growth has slightly increased to 11.1 percent at end of February 2020 (LE 3801.5 billion) compared to 10 percent last month due to the increase in **Claims on Private Sector** to 12.3 percent compared to 11.1 percent last month and the increase in **Net Claims on Government, and GASC** to 11.2 percent in February 2020, compared to 10.7 percent last month.
- **Total Deposits annual growth rate– excluding deposits at the CBE** – increased to 11 percent (LE 4306 billion) at the end of February 2020, compared to 10.7 percent last month. **Out of total deposits, 85.6 percent belonged to the non-government sector.** Nevertheless, the **Loans-to-deposits Ratio** slightly decreased to record 43.9 percent at end of February 2020, compared to 44 percent last month.
- **In the same context**, the Monetary Policy Committee (MPC) decided on 14th May 2020 to keep the Central Bank of Egypt's (CBE) **overnight deposit rate, overnight lending rate, and the rate of the main operation at 9.25 percent, 10.25 percent, and 9.75 percent**, respectively. The **discount rate** was also kept at **9.75 percent**.

External Sector

▪ **The Balance of Payment** recorded an **overall surplus** of US\$ 0.4 billion in the first half of the FY 2019/2020, compared to deficit of US\$ 1.8 billion during the same period last year. This comes in light of a **subdued current deficit** declining by US\$ 0.7 billion to reach US\$ 4.6 billion during the period of study, and a **significantly declining Non-oil trade account deficit and an increase in Unrequited current transfers**, in addition to recording a surplus of US\$ 5.2 billion in the capital and financial account.

The improvement in the current account deficit resulted from the step up in a number of sub-categories as follows:

- **Non-oil merchandise exports rose by US\$ 0.9 billion (11.4 percent growth), to reach US\$ 9.2 billion** due to escalating exports of gold, radio and TV transmitters and receivers, drugs, vaccines, pharmaceuticals, and organic and inorganic compounds, which overcame the decline in oil exports to US\$ 5.0 billion due to the drop in the exports of crude oil and oil products, despite the increase in the exports of natural gas
 - **Non-oil merchandise imports declined by US\$ 0.5 billion (-1.8 percent growth) to reach US\$ 27.2 billion** supported by the drop in imports from iron, wheat, cars & tractors spare parts, and drugs.
 - **Oil merchandise imports declined to reach US\$ 5.78 billion**, compared to US\$ 5.86 billion during the same period last year supported by the lower imports of oil products (as importation of natural gas has stopped starting from Q2 of FY 2018/2019) and higher imports of crude oil.
 - **Suez Canal receipts increased by 3.5 percent** to reach US\$ 3 billion.
 - **Remittances rose by US\$ 1.7 billion (13.5 percent growth) to reach US\$ 13.6 billion.**

The Capital and Financial Account recorded net inflows of US\$ 5.2 billion in the first half of the FY 2019/2020. **Net Foreign Direct Investments (FDI) increased by US\$ 0.8 billion to record US\$ 5.0 billion** compared to US\$ 4.2 billion during the same period last year. The rise in investments inflows came in the form of increased investment inflows in establishing new businesses, and which results in increasing its capital to US\$ 1.2 billion to reach US\$ 3.2 billion during the period of study. Portfolio investments in Egypt registered net inflows of US\$5.2 billion, compared to net outflows of US\$3.1 billion, despite the volatility of global financial markets, especially the emerging markets.

* Preliminary, subject to change.

Revised

1/ It is noteworthy to mention that Ministry of Planning is revising GDP data for FY17/18 on quarterly basis.

2/ Real percent change is calculated using constant prices for FY06/07, however, starting FY12/13 growth rates are calculated using constant prices for FY11/12, and starting FY17/18 growth rates are calculated using constant prices for FY16/17.

3/ Includes petroleum and natural gas activities.

4/ Includes Net Indirect Taxes.

5/ Gross Capital Formation. Includes change in inventory.

6/ Current prices.

Source: Ministry of Planning Monitoring and Administrative Reform.

Revised

* Preliminary.

1/ Includes public and private consumption.

-- Data is unavailable.

* Revised

1/ Excludes Egyptians living abroad.

2/ Starting September 2019, CPI Urban data is based on the weights derived from 2017/2018 income and expenditure survey, and using 2018/2019 as a base. Prior to this date, the basket and weights were derived from 2007/2008 income and expenditure survey taking January 2010 as a base month.

3/ The new series of Producer Price Index was issued by CAPMAS started September 2007 in replacement of the Wholesale Price Index, using 2004/2005 prices of goods and services as a base period, and deriving sub-group weights from average values of agricultural, industrial and services production for the years 2002/2003 and 2003/2004.

4/ Average.

5/ End of period.

6/ Reflects the average of the period Aug-Sep 2019, as the data for July 2019 is not available

Sources: Central Bank of Egypt and CAPMAS.

1/ Series break. Prior to June 2007, series reflects WPI indicators.

2/ Starting September 2019, CPI Urban data is based on the weights derived from 2017/2018 income and expenditure survey, and using 2018/2019 as a base. Prior to this date, the basket and weights were derived from 2007/2008 income and expenditure survey taking January 2010 as a base month.

3/ Total Liquidity (M2) is defined from assets side as net foreign assets + net domestic assets of banking system. From liabilities side, it includes money (M1) and quasi money.

4/ Monthly average exchange rate.

5/ Data reflects Producer Price Index for the month of January 2020.

Source: Ministry of Finance.

-- Data are preliminary & under preparation until being finalized.

* The decline in tax revenues is a result of a combined factor among which the deceleration in receipts associated with the appreciation in the Egyptian currency (during the period of study compared to the same period last year); such as the receipts from customs and Suez Canal.

1/ The decrease in non-tax revenues, came on the back of the decline in the exceptional resources from grants during the year of comparison.

2/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

3/ Based on IMF GFS 2001 (modified to cash basis).

4/ Includes Central Administration and Local Governments, and Public Services Authorities.

5/ Overall deficit net of interest payments.

6/ Overall deficit excluding net acquisition of financial assets.

7/ Includes consolidated operations for the budget sector, National Investment Bank (NIB), and Social Insurance Funds (SIF). Data are prepared on consolidated basis; excluding financial interrelations between the three bodies.

8/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

9/ The increase in interest could be explained in light of the increase in interest Payments due to social pensions' advance payment in September 2019 instead of later in June same fiscal year.

Source: Ministry of Finance.

* The decline in tax revenues as percent of GDP is a result of a combined factor among which the deceleration in receipts associated with the appreciation in the Egyptian currency such as the receipts from customs and Suez Canal.

Source: Ministry of Finance - Central Bank of Egypt.

- () Annual percentage change
- * Preliminary.

- Debt figures depict consolidated stocks at three different levels of compilation; the Budget Sector, the General Government, and the Public Sector. The Budget sector debt stock encompasses outstanding stocks of Central Administration, Local Governments, and Public Service Authorities. The General Government debt stock includes the consolidated debt stocks of the Budget sector, the NIB, and SIF. The Public sector debt stock corresponds to the consolidated debt of the General Government and Economic Authorities.
- Outstanding domestic debt stocks due on Central Administration, Local Governments, and Public Service Authorities.
- The notable decline in Budget sector deposits can be explained in light of the use of nearly LE 60 billion according to the presidential decree number 105 for the year 2013.
- Consolidated domestic debt of the Budget sector, NIB, and SIF. This level of compilation entails the deduction of Budget Sector borrowings from NIB, MOF securities held by the SIF and NIB, the SIF bonds, and NIB borrowings from SIF.
- Consolidated domestic debt due on the General Government and Economic Authorities. This level of compilation excludes outstanding debt of Economic Authorities to NIB as well as Budget Sector borrowing from Economic Authorities.
- Total deposits of General Government and Economic Authorities (net of SIF deposits and Budget Sector borrowing from Economic Authorities).
- Total Government Debt includes External Debt serviced by the Ministry of Finance.
- During the second quarter of FY12/13, a total amount of US\$ 4 billion were deposited in CBE as part of a Qatari financial assistance pledge.
- GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations
- There is a combined factor behind the decrease witnessed in gross external debt as percent of GDP at end of December 2019 compared to end of June 2019: on one hand, the increase in nominal value of GDP in FY 19/20; on the other hand, the increase of Gross External Debt at a slower pace due to the appreciation in exchange rate.

Source: Central Bank of Egypt and Ministry of Finance calculations.

* Preliminary.

1/ Includes currency in circulation outside CBE and banks' LE deposits with CBE.

2/ Includes currency in circulation outside the banking system, and demand deposits in local currency. Excludes drafts and checks under collection.

3/ Includes time and savings deposits in local currency, demand deposits and time and savings deposits in foreign currency.

4/ Includes claims on private business sector and household sector.

5/ Excludes deposits/loans held /provided by CBE.

6/ M2/ Reserve Money.

7/ GDP / M2 centered. M2 centered equals $[(M2)_t + (M2)_{t-1}] / 2$.

8/ Denotes the ratio of foreign currency demand, and time and savings deposits to total liquidity. Excludes non-residents deposits (which is part of net foreign assets) as well as government deposits.

9/ The ratio of foreign currency government and non-government deposits to total deposits with the banking system. Excludes deposits held at CBE.

10/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

Source: Central Bank of Egypt and Ministry of Finance calculations.

1/ Total Liquidity includes money and quasi money.

2/ M2 growth at constant exchange rate, calculated by applying previous period's exchange rate to the current period.

3/ Foreign currency demand deposits, and time and saving deposits.

-- Data unavailable.

* Revised

1/ Quarterly ratios calculated as percent of full year GDP.

2/ FDI inflows include investments in the oil sector.

3/ Annual data reflects end of December in each year.

4/ The market value of outstanding shares, computed by multiplying outstanding number of shares by their current prevailing market prices.

5/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

6/ Turnover ratio = value of traded shares / market capitalization.

7/ Price / earning ratio, also known as the "Multiple", is the ratio of stocks' prevailing market prices to annual earnings.

8/ Annual dividends / current stock price.

9/ Reflects Commercial Banks' data.

10/ Includes government and non government loans and deposits. Excludes deposits held at CBE.

11/ Banks operating in Egypt, excluding Central Bank of Egypt.

* Preliminary, subject to change.

-- Data unavailable.

1/ Excluding change in inventory.

2/ Including crude oil, natural gas and other extractions.

3/ Including Suez Canal and information.

4/ Including settlements, sewage services, and replacing and maintenance of assets.

5/ Manufacturing and construction index was revised during the period from December 2016 till December 2017.

6/ Excluding Suez Canal.

7/ Based on Suez Canal receipts in US dollars.

DOMESTIC PRICES

Source: CAPMAS.

--Data not available.

1/ Starting September 2019, CPI Urban data is based on the weights derived from 2017/2018 income and expenditure survey, and using 2018/2019 as a base. Prior to this date, the basket and weights were derived from 2007/2008 income and expenditure survey taking January 2010 as a base month.

2/ The new series of Producer Price Index was issued by CAPMAS starting September 2007, using 2004/2005 prices of goods and services as a base period, and deriving sub-group weights from average values of agricultural, industrial and services production for the years 2002/2003 and 2003/2004. It is worth mentioning that Producer Price Index series before September 2007 are not available so far.

3/ The Central Bank of Egypt launched "Core Inflation Index" derived from the CAPMAS headline CPI, however it excludes items characterized by inherent price volatility and those with managed prices, specifically 'fruits and vegetables' (8.8 percent of headline CPI basket) as well as 'regulated items' (19.4 percent of headline CPI basket).

Source: Ministry of Finance.

1/ Covers Central Administration and Local Governments, and Public Services Authorities.

2/ Includes consolidated operations for the Budget sector, National Investment Bank (NIB), and Social Insurance Funds (SIF). Data prepared on consolidated basis; excluding financial interrelations between the three bodies.

3/ Overall deficit excluding net acquisition of financial assets.

4/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

5/ Ministry of finance has published for the first time the general government's performance data for the fiscal year14/15, and that is after auditing the data with the concerned entities that are included within the general government scope.

6/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

7/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

* The decline in tax revenues is a result of a combined factor among which the deceleration in receipts associated with the appreciation in the Egyptian currency (during the period of study compared to the same period last year); such as the receipts from customs and Suez Canal.

1/ Includes Central Administration and Local Governments, and Public Services Authorities.

2/ Based on IMF GFS 2001 (modified to cash basis).

3/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

4/ The decrease in non-tax revenues, came on the back of the decline in the exceptional resources from grants during the year of comparison to reach LE 25.4 billion during FY14/15, compared to LE 95.9 billion during FY13/14.

5/ Overall deficit excluding net acquisition of financial assets.

6/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

7/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

8/ The increase in interest could be explained in light of the increase in interest Payments due to social pensions' advance payment in September 2019 instead of later in June same fiscal year.

9/ The increase in grants is mainly due to the increase in capital grants to finance investments.

Source: Ministry of Finance.

1/ Includes Interest and Principal Payments (excluding arrears).

2/ The increase in interest could be explained in light of the increase in interest Payments due to social pensions' advance payment in September 2019 instead of later in June same fiscal year.

-- Data are preliminary & under preparation until being finalized.

* The decline in receipts from Suez Canal is associated with the appreciation in the Egyptian currency (during the period of study compared to the same period last year).

1/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

2/ The decline in Taxes on Corporate Profits from CBE is mainly due to the accommodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits, as it is expected that no tax receipts would be collected from CBE till end of FY19/20.

3/ The decline in Taxes on International Trade are primarily due to the appreciation of the Egyptian currency (during the period of study compared to the same period last year).

FISCAL SECTOR

Source: Ministry of Finance

-- Data are preliminary & under preparation until being finalized.

1/ The decrease in non-tax revenues, came on the back of the decline in the exceptional resources from grants which were included in the state budget for the year 2014/2015 to reach LE 25.4 billion down from LE 95.9 billion in 2013/2014.

2/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

3/ Includes grants from Public Entities .

4/ Revenues from special accounts and funds belonging to budget sector entities like public universities, medical centers and research institutes. Such revenues are met by equivalent amounts on the expenditures side.

5/ Includes additional 10 percent of the monthly receipts of the Special Accounts and Funds, in addition to 25 percent of the outstanding balances of those funds were transferred to the Ministry of Finance applied only during 2013/2014 according to law Number 19 for the year 2013.

6/ Reflects allocations to finance investment projects in previous year, which were not used during that year. Such allocations are thus carried forward to the current fiscal year and recorded as self-financing sources of investment under miscellaneous revenues.

7/ The increase in "Other capital revenue to finance investments" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the expenditure side.

8/ The decline in dividends from EGPC is mainly in light of the decline in international petroleum prices.

9/ The decline in dividends receipts from Suez canal is partially due to the slowdown in international trade, and China slowed economic growth. In addition, the decline in international oil prices have affected the number of vessels passing through Suez Canal.

10/ The increase in receipts from Miscellaneous revenues is mainly due to the acquirance of 25 percent of the delayed profits with a total amount of LE 1.5 billion, and the increase in resettlements revenues from Lands by LE 4 billion, in addition to the repayment of other tax dues by LE 3.5 billion during the year of study.

11/ The decline in Dividends collected from EGPC is due to the increase in cost budens on EGPC due to the effect of depreciated Egyptian Pound Exchange rate against US Dollars.

12/ The decline in Dividends collected from CBE is mainly due to the accomodative monetary policy adopted by the CBE to curb inflation since FY16/17, where the increase in interest rates has imposed burdens on CBE profits.

13/ The increase in Other Property Income is due to the additional LE 6.6 billion from the sale of 4G liscence.

14/ The increase in grants is mainly due to Capital Grants received from United Arab Emirates (UAE) to finance investments during FY16/17.

15/ Reflects the indirect cost effect of economic reform program, as it is expected that no dividends would be collected from CBE till end of FY19/20.

16/ The decline in dividends from Suez Canal could be explained in light of the appreciation of the Egyptian currency.

17/ The decline in Other capital revenue to finance investments is related to retained revenues that would be collected before the end of current fiscal year.

18/ The increase in grants is mainly due to the increase in capital grants to finance investments.

-- Data are preliminary & under preparation until being finalized.

1/ Data reflects budget figures in light of Decree Number 79 for the year 2019.

2/ Reflects Treasury contributions towards Pension Funds.

3/ Includes expenditures on defense.

4/ The increase in "Direct investment (including customs fees)" represents expected increases in self finances for the social housing program. This increase has similarly corresponding increases on the revenues side.

5/ The decline in subsidies from EGPC is mainly in light of the decline in international petroleum prices.

6/ The increase in spending on Direct investment (including customs fees) is mainly due to the increase in infrastructure spending , more specifically spending on roads, transportation, buildings, hospitals and schools. To that extent, total spending on construction amounted to LE 29.2 billion during FY15/16, increasing by 44 percent compared to the previous year, and spending on Non-residential buildings amounted to LE 10 billion, increasing by 17.7 percent compared to the previous year.

7/ The increase in Service expenditures for non employees reflects the increase in spending on health treatments financed by state budget.

8/ The notable increase in subsidies to EGPC is mainly due to the Exchange rate depreciation effects which has increased EGPC cost burdens substituted through increasing the allocated subsidies to EGPC.

9/ The increase in interest could be explained in light of the increase in interest Payments due to social pensions' advance payment in September 2019 instead of later in June same fiscal year.

10/ The increase in Voluntary Transfers reflects increased spending for treatment of Egyptian Citizens.

() Annual percentage change

* Preliminary, subject to revision.

1/ Domestic debt figures were revised in consistency with international standards of classification. Debt figures depict consolidated stocks at three different levels of compilation; the Budget Sector, the General Government, and the Public Sector. The Budget sector debt stock encompasses outstanding stocks of Central Administration, Local Governments, and Public Service Authorities. The General Government debt stock includes the consolidated debt stocks of the Budget sector, the NIB, and SIF. The Public sector debt stock corresponds to the consolidated debt of the General Government and Economic Authorities.

2/ Outstanding domestic debt stocks due on Central Administration, Local Governments, and Public Service Authorities.

3/ The notable decline in Budget sector deposits can be explained in light of the use of nearly LE 60 billion according to the presidential decree number 105 for the year 2013.

4/ Consolidated domestic debt of the Budget sector, NIB, and SIF. This level of compilation entails the deduction of Budget Sector borrowings from NIB, MOF securities held by the SIF and NIB, the SIF bonds, and NIB borrowings from SIF.

5/ Consolidated domestic debt due on the General Government and Economic Authorities. This level of compilation excludes outstanding debt of Economic Authorities to NIB as well as Budget Sector borrowing from Economic Authorities.

6/ Total deposits of General Government and Economic Authorities (net of SIF deposits and Budget Sector borrowing from Economic Authorities).

7/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

* Preliminary, subject to revision.

^{1/} Outstanding domestic debt stock, due on Central Administration, Local Governments, and Public Service Authorities.

^{2/} Includes T-bills issued in US dollar and Euro beginning June 2012.

^{3/} Includes Eurobonds issued in 2001, 2010 and 2013. Noteworthy that since June 2012 this item includes an additional stock of the Egyptian Dollar Certificate, whereby in December 2014 the stock of the Eurobonds amounted to LE 4742 million, and the stock of the Egyptian dollar certificate amounted to LE 2331 million.

^{4/} In light of the enhanced transparency of the new fiscal policy framework, the outstanding debt on Treasury to SIF (through NIB) was registered as a direct liability on the first to the latter on July 1st, 2006. It is noteworthy to mention that, new treasury bonds are issued on a yearly basis to the Insurance Funds incase liabilities exit on the Ministry of Finance. Recently, by end of December 2012, additional bonds were issued, with a total amount of LE 15.5 billion, to repay part of the historical liability on the Ministry of Finance to Insurance Funds.

^{5/} Part of SIF deposits that are used as loan facilities for the budget sector, currently recognized as part of budget sector domestic debt obligations.

^{6/} GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

* Preliminary, subject to revision.

1/ Consolidated domestic debt of the Budget sector, NIB, and SIF. This level of compilation entails the deduction of Budget Sector borrowings from NIB, MOF securities held by the SIF and NIB, the SIF bonds, and NIB borrowings from SIF.

2/ In light of the enhanced transparency of the new fiscal policy framework, the outstanding debt on Treasury to SIF (through NIB) was registered as a direct liability on the first to the latter on July 1st, 2006. This was associated with the issuance of two treasury bonds in interest of SIF, worth L.E 197.725 billions. The third bond worth L.E 74.5 million was issued at end of June 2007. The fourth bond worth L.E 1.1 billion was issued at end June 2008. The fifth bond was issued at end June 2009 worth L.E 2.3 billion. A sixth bond worth L.E 988.8 million was issued at end June 2010. The seventh bond, amounting to L.E 1.8 billion was issued at end of June 2011. By end of June 2012, additional bonds were issued, with a total amount of L.E 15.5 billion. In addition to another bond was issued by the end of 2013, worth L.E 14.2 billion. Recently, by the end of June 2014 another L.E 14.2 billion was issued, to repay part of the historical liability on the Ministry of Finance to Insurance Funds.

3/ Part of SIF deposits used as loan facilities for the budget sector, currently recognized as part of budget sector domestic debt obligations.

4/ Data revised to exclude deposits used as loan facilities for budget sector starting June 2006.

5/ GDP actuals for FY18/19 has been revised to reach L.E 5322.3 billion instead of L.E 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach L.E 6162.6 billion as per the Ministry of Finance Calculations

* Preliminary, subject to revision.

1/ Consolidated domestic debt due on the General Government and Economic Authorities. This level of compilation excludes outstanding debt of Economic Authorities to NIB.

2/ This represents part of the Economic Authorities' deposits at TSA that is borrowed by the Budget sector in the form of loan facilities. Hence it represents an interrelated debt between the Budget and Economic Authorities and is therefore deducted on consolidation from both gross Public Sector debt and deposits of Economic Authorities.

3/ SIF deposits were previously included in General Government deposits, see Table (16).

4/ Data revised to exclude deposits used as loan facilities for budget sector starting June 2006.

5/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

Source: Central Bank of Egypt and Ministry of Finance.

* Preliminary.

1/ Gross External Government debt has witnessed an increase during last year by US\$ 23.3 billion mainly in light of the borrowing from Eurobond issuances of 7 billions, 2.75 billions loan by the IMF (part of extended fund facility), 2 billions loan by the WorldBank and 0.5 billion loan by the African Development Bank.

2/ It's noteworthy that during 2017 a total amount of US\$ 30 billion was repaid, as per Central Bank of Egypt, distributed on due bonds, foreign debt of international banks such as African Export-Import Bank, deposits and loans from many countries of which KSA, Libya and Turkey, in addition to obligations to government entities such as EGPC and other obligations to Paris Club.

3/ Based on CBE classification. CBE writes-off outstanding debt on government entities (both direct and indirect) to Paris Club according to rescheduled dates of repayments. On the other hand, indebted government entities write-off these debts (dominated in EGP) once they are paid back to CBE and according to original schedule, which precedes rescheduled dates.

4/ CBE reclassified US\$ 4.3 billion as part of Central and Local Government debt, that was only reflected in its statistics starting September 2008. It is noteworthy that such reclassification has not had any impact on the total outstanding foreign debt.

5/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

6/ Gross external debt as % of GDP is calculated using end of period exchange rate.

7/ There is a combined factor behind the decrease witnessed in gross external debt as percent of GDP at end of December 2019 compared to end of June 2019: on one hand, the increase in nominal value of GDP in FY 19/20; on the other hand, the increase of Gross External Debt at a slower pace due to the appreciation in exchange rate.

8/ Worth mentioning that gross external debt at end of quarter is calculated as a ratio of full-year exports of goods and services.

Source: Ministry of Finance.

() Percent change over same period in previous year.

* Preliminary

1/ The increase witnessed in the total government debt service comes in light of the rise in the principal payments of the domestic debt due to the increase in treasury bond repayments by almost LE 100 billion by the end of FY14/15.

2/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

3/ Jul-Apr 2019/20 ratios are in percent of full year 2019/20 GDP estimates.

4/ Jul-Apr 2019/20 ratios are in percent of Jul-Apr 2019/20 expenditure.

5/ The increase in interest could be explained in light of the increase in interest Payments due to social pensions' advance payment in September 2019 instead of later in June same fiscal year.

-- Data unavailable.

1/ It is worth noting that the Egyptian Exchange was closed from 28/1/2011 to 22/3/2011 due to the uprisings in Egypt.

2/ The biggest 30 companies in terms of liquidity and value. Index = 1000 on 1/1/1998.

3/ Calculated as standard deviation of daily returns during the period.

4/ Calculated by multiplying outstanding number of shares by their prevailing market prices.

5/ GDP actuals for FY18/19 has been revised to reach LE 5322.3 billion instead of LE 5250.9 billion. Meanwhile GDP for FY19/20 is projected to reach LE 6162.6 billion as per the Ministry of Finance Calculations

6/ Including Treasury bonds (encompassing primary dealers), housing bonds and development bonds.

7/ Securitization bonds were listed on the Egyptian Exchange as of September 2006.

8/ Price / earning ratio, also known as the " Multiple" , is calculated by dividing the market price of each stock by its annual earnings.

9/ Calculated for the most active 50 companies.

10/ Annual dividends / current stock price.

Source: The Egyptian Stock Exchange Monthly Bulletin.

1/ Includes Electrical Equipment and Engineering, Media, Trade, Information Technology, Agriculture and Fishing, Paper, Packaging and Plastics, Mills and Storage, Miscellaneous Services, Retailers and Consumer Household Goods.
